

CUSTOM FABRICATION

TCH is a global manufacturer that provides custom fabricated solutions for difficult applications to a diverse customer base. We provide a complete fabricated solution for commercial and industrial markets. Our experienced sales team will help you choose the right assembly for your application.

SOLUTIONS

We fabricate custom metal hose products, piping arrangements, and steel piping manifolds. We complete projects to our customers' specifications and satisfaction. Contact us if you have a complicated project that demands customized parts. We are ready to discuss these applications and how we help you achieve your goals for your next project.

ADVANTAGES

- Large fitting pipe and hose inventory, ensuring quick turn-around times
- Custom assemblies are manufactured in house giving you short lead times
- All custom parts and products are tested at the TCH factory so you can install with confidence
- Our certified welders have years of hose experience and are experts with difficult fabrications
- Product cleaning is available for cryogenic and medical gas hose or any application that requires this service
